

Unlock the Power of Advanced Analytics for Post-Acute Performance

PointRight delivers advanced analytics solutions that empower Skilled Nursing Facilities, payers, and other post-acute care stakeholders to improve facility performance and patient outcomes. Our analytics platform facilitates collaboration, alignment and shared improvement across payers and providers.

Aligning stakeholders to facilitate collaboration

The PointRight Difference

- ✓ Advanced analytics that go far beyond business intelligence and are actionable for data-driven decision-making, providing:
 - **ANSWERS** about past and current performance
 - **INSIGHTS** into drivers behind the outcomes
 - **INDICATORS** for clear direction on the next steps to take
- ✓ A highly intuitive user experience and simple, integrated workflow
- ✓ A team of experts, trusted thought leadership, and exemplary customer service
- ✓ Proven outcomes and value across the post-acute care continuum

Benefits for Skilled Nursing Providers

Manage the care of patients, residents, and populations for the best quality of care outcomes and succeed in value-based care by managing facility performance.

Improve accuracy and quality of data

- Receive accurate reimbursement
- Improve quality of care
- Ensure compliance

Manage patient care

- Provide individualized care plans
- Prevent adverse events

Measure, monitor, and manage performance outcomes to deliver value-based care

- Lower rehospitalization
- Improve quality measures
- Ensure a strong post-acute care referral pipeline

Better regulatory performance:

average 12% fewer total deficiencies, 37% fewer substandard quality of care deficiencies, and 36% fewer widespread deficiencies

Higher Medicare Part A reimbursement:

increase of \$0.96/Medicare resident/day

Benefits for Payers

(Health Systems, Accountable Care Organizations and Health Plans)

Build, monitor and manage networks and achieve superior outcomes.

Ensure the delivery of value-based care

- Decrease overall cost of care
- Decrease rehospitalization
- Manage post-acute length-of-stay

Manage care of patients and populations

- Prevent adverse events
- Close care gaps

Manage care transitions

- Ensure successful discharge from PAC to home
- Meet regulatory requirements for discharges to PAC
